

I took a photo of my bike because it's really cool. It's a 9 cm by 15 cm photo.

1. If the photo were enlarged to 9500% of its original size, what would be its new length and width?
2. Suppose you want to make a 6 cm by 10 cm copy of the original photo. What percent should you use?
3. What is 45% of 960?
4. 93 is what percent of 50?
5. 25 is 70% of what number?
6. 90 is 85% of what number?
7. 60 is what percent of 20?
8. What is 1,000,000,000,000,000% of .0000091285?
